a
Raw global von Mises peak (MPa)
Tetrahedra (refinement sequence)
Nonlinear lower bound
Resolved-load linear
b
Adjacent-level relative change (%)
Tetrahedra (refinement sequence)
Common-point tensor
Nonlinear energy
Initial target: 3%
c
Linear vs nonlinear tensor difference (%)
Tetrahedra (refinement sequence)
Resolved-load linear
Frozen objective field
d
Continuum volume/mass deficit (%)
Tetrahedra (refinement sequence)
CAD
polyhedron
